### **Overview of training:**

This workshop will support teachers in providing the phonics curriculum to Key Stage One and intervention at KS2. It covers a detailed look at ideas and activities for teaching effective systematic phonic lessons based on the Letters and Sounds scheme. Our course focuses on lessons that include handwriting, reading and spelling in words, captions and sentences from Phase 2 to the end of Year 2. This workshop is aimed at teachers who follow the Letters and Sounds scheme, who would like support, ideas and resources for teaching the daily lesson within current recommended guidelines. It links closely to the essential core criteria as stated by 'gov.uk' when following a phonics programme. Some knowledge of basic phonics principles will be necessary to take this course.

This workshop will give attendants an opportunity to explore resources available and how to teach using a variety of strategies with colleagues. The sharing of ideas and activities for each phase is a substantial part of this workshop, where attendants can collaborate with effective strategies they have used themselves. Examples of our resources will be provided after attendance of this course, including our overview plans, flashcards and some sample units for Phase 3, 4 and 5. An informative and practical course that is aimed at English Subject Leaders, Primary School teachers and Senior Leadership team members.
